SeneGence

SENEGENCE

was founded on the idea to offer superior products and an opportunity for women to be independent and successful in business, regardless of age, background, or education.

Joni Rogers-Kante, CEO and Founder of SeneGence®, had a vision of a company with products that really work and a career that really works, long before discovering its premier product. Once she discovered a long-lasting liquid lip color unlike anything she had seen before, she knew it needed to be shared with the world.

In 1999, SeneGence exploded into the marketplace with the launch of patented LipSense® color technology, and SeneGence quickly rose in popularity as the creator of the original long-lasting lip color.

This was only the beginning of an entire line of long-lasting cosmetics and revolutionary anti-aging skin care products. Over the years, SeneGence has grown to support hundreds of thousands of successful careers and satisfy customers around the world by remaining steadfast in its commitment to use only the most advanced technologies to make skin more beautiful.

I stand behind our products 100% and guarantee your skin will look more beautiful in 30 days, when using our 24-hour anti-aging skin care and long-lasting color systems.
