BEAUTY BOOK

Senegence®

Was founded on the idea to offer superior products and an opportunity for women to be independent and successful in business, regardless of age, background, or education.

Joni Rogers-Kante had a vision of products that really work and a career that really works. Once she discovered a long-lasting liquid lip color unlike anything she had seen before, she needed to share it with the world.

In 1999, Senegence exploded into the marketplace with LipSense®, and quickly rose in popularity as the creator of The Original Long-Lasting Lip Color®.

This was the beginning of an entire line of long-lasting cosmetics and revolutionary anti-aging skin care products. Senegence has now grown to support hundreds of thousands of successful careers and satisfy Customers globally in its commitment to use the most advanced ingredients to make skin more beautiful.

"I stand behind our products 100% and guarantee your skin will look more beautiful in 30 days when using our all-day anti-aging skin care and long-lasting color systems."

Joni collecting samples from Mount Yasur, Vanuatu

In the Vanuatu string of islands in the South Pacific, Joni worked with scientists and botanists to locate naturally occurring resources that have proven beneficial to the skin.

Today, SeneGence products are formulated with proprietary complexes and formulas that help make skin more beautiful.

These distinctive ingredients are incorporated into both SeneGence SkinCare and Cosmetics, helping to improve skin from head to toe dramatically, 24-hours a day.

Finding Your Undertone

Take a close look at the veins on the underside of your wrist.

Are your veins blue or purple? If so, then you are cool, and will look good in MakeSense® shades with pink or red undertones.

Are your veins green or olive? If yes, you are warm, and will look great in MakeSense shades with yellow undertones.

An alternative way to find your undertone is by taking a picture in both a cool-colored shirt (such as gray), and a warm-colored shirt (such as yellow). Whichever you feel you look the best in is likely your undertone.

Can't tell? Then you are neutral.

How to Apply

Apply to clean, dry lips. For a defined look, line with LinerSense® first. With lips parted, apply LipSense® in one direction, beginning with outside corner of the mouth. Spread color in a fluid, sweeping motion across lips to opposite corner (do not move applicator back and forth). Apply three layers for long-lasting results, letting color dry in between each layer. Finish with LipSense Gloss to maintain lasting color and moist lips. For proper use, purchase your LipSense in a collection which includes a color, gloss, and Ooops!™ Remover.

LipSense® MOISTURIZING GLOSS

Dehydrated lips are no match for the moisturizing ability of shea butter, a natural ingredient used as the base for many textures of LipSense Glosses. Moisturizing glosses improve the longevity of LipSense Liquid Lip Color, while covering and conditioning naked lips.

GIVING BACK

The Make Sense Foundation® (MSF) is the SeneGence nonprofit organization created by Joni Rogers-Kante as part of the overall plan to give back to the community. The MSF is based on the fundamental mission to help women and children in crisis and thrives on donating directly to deserving organizations. SeneGence offers its Distributors opportunities to donate a portion of their product sales to the MSF as well as nominate their local charities to be considered to receive financial support.

A portion of the proceeds from the sale of select LipSense colors, including Kiss for a Cause, Lexie Bear-Y, and Luv It as well as the MakeSense foundation line of make up products are given back to the MSF to support its initiatives. These are purchases that help you feel and look good!
