

HOW TO APPLY LIPSENSE®

Apply to clean, dry lips. For a more defined look, line lips with LinerSense first. With lips parted, place LipSense applicator on lip beginning at the outside corner and spread in a fluid, sweeping motion to the opposite corner of the lip without lifting the applicator (do not move applicator back and forth). Use three layers for long-lasting results. Let each layer dry about five seconds before applying the next layer. Finish your customized look (any three shades) with LipSense moisturizing glosses – to keep your color lasting and your lips moist and plump.

Yellow - Based / Warm --->	Beige Champagne 	Bombshell 	Bravo 	Apple Cider 	Luv It 	Dawn Rising 	Precious Topaz
